

Credit Where Credit Is Due (grouped by callsign) – Updated Sept. 4, 2020

For the talent and knowledge to do the ham radio traffic nets, plus my hobbies of square dancing, and my computer bulletin board system (BBS):

The Lord Jesus Christ (He gets all the Glory, Honor, and Praise, for He alone is worthy of such).

My Main Ham Radio Elmers since 1991:

K3VRM (SK), KB0WSA (SK), KB5IDB, N0Kfq (SK), KB5HPT, NS2B, N3TSZ, W5SLG, WB4QDX, and WW5AA (SK).

For information on the Various Nets:

For pointers/templates on the Spreadsheet (now the main form of the list):

KC5GGE, VA3GDZ

For the original inspiration for the net list:

NJ2BA (SK), N2NJY, W2RJJ, and “The Net On 6”. It started on 6 Meters, then expanded to Echolink, then went to Echolink only, after the passing of NJ2BA (SK). The net then changed its name to The Millennium Net, until it went QRT in August, 2020.

The files are in my D-Rats shared folder (look for WX4QZ), or point your web browser to <https://www.theweatherwonder.com/elk.htm> – and click on the desired links. An Excel utility is required for the spreadsheets, and a PDF utility is required for the PDF files.
