

How To Contact Daryl Stout, WX4QZ – via amateur radio and otherwise:

1) Point your internet web browser to:

<https://www.theweatherwonder.com/fbk.htm> -- and follow the instructions.

SpamAssassin is in place to BLOCK spam, and email from certain countries.

2) Via The Thunderbolt BBS (<http://tbolt.synchro.net>), there are several ways to contact me.

A) At the Matrix Logon, choose the Feedback Option. Please leave your name and email address if you want a reply. This is especially true if you have lost or forgotten your BBS password (see the BBS's Password Policy for details, for the data I need to be sure that it is you, and not someone spoofing your BBS account).

B) From the Main Menu prompt, choose E for Email, then F for Feedback To Sysop (this is with using the Synchronet Command Shell). This will create a PRIVATE message to myself ONLY.

C) From another FIDONet BBS, send Netmail to 1:19/33 -- while I'm part of other message networks, this is the best network netmail address to contact me at.

D) From another Synchronet BBS, via QWK Networking, send Netmail to:

daryl.stout@TBOLT

3) Via FAX to (501) 502-3560 -- this is done via the US Robotics FAX modem, and the Classic Phone Tools Program, running under Windows 10. With this setup, no paper is wasted. However, I do not know if this works, so use it at your own risk.

4) Via Facebook with a message to me in one of the groups that I moderate. Prior to my Mom's death in August, 2019, numerous hacks on my account, and via "friends" wanting me to "like, share, and view" various links, burned me out...where I UNFRIENDED everyone.

I can still be reached via Messenger, but have no Facebook friends, per se, anymore. The "profile picture" is a "patriotic dachshund", and the cover photo is a family portrait from Christmas Day, 1962. While my brother is still alive, both our parents are dead and gone.

5) Via Twitter -- look for @wx1der -- I am VERY SELECTIVE on who I "follow" ...and use it VERY SPARINGLY.

6) Via Skype -- look for Daryl Stout -- this is used VERY SPARINGLY.

7) Via Postal Mail to P.O. Box 55655, Little Rock, AR 72215 -- I check the P.O. Box on Tuesdays and Fridays of each week; weather, health, and schedule permitting.

8) For licensed Amateur Radio Operators, you can reach me via several ways...note that verification of your license is required with each of these modes:

a) Selected Nets during the week – see the file “Nets Where WX4QZ Is Net Control”. For details on nets that are on the QuadNet Array, go to <https://www.openquad.net>

b) Send a message to WX4QZ on D-Rats (D-Star). If the D-Rats program is not online, please try again later, or one of the other options noted on this page.

c) If a subscriber on QRZ, you can login, and look for WX4QZ. You will see my email there.

d) Packet Radio users can send a message via the Outpost Packet client, or from the packet BBS itself to WX4QZ@NS2B.#WNY.NY.USA.NOAM

e) Winlink 2000 users can send email to wx4qz@winlink.org

f) HamShack Hotline users can contact me at 4848. This is a PRIVATE VoIP party line service, exclusively for licensed ham radio operators. For details, go to <https://www.hamshackhotline.com>

g) "Eyeball QSO's" are done at exam sessions or hamfests.
