

The PCL Packet Net will be "on the air" every Monday evening at 7pm Central, 8pm Eastern.

Sometimes funny... sometimes serious... but always interesting. Friendly "Hams" from all over gather here every week for a few chuckles, tips and tricks, and tall tales. Join us... you'll be glad you did.

To connect to the PCL Packet Net in Penfield, New York:

**! For HF Radio Users: Using 14.105 LSB (Network105), connect to NS2B-11. Be aware this can be a high traffic connection - efforts will be made to "slow things down" a bit to accommodate HF connections.**

**! For AXIP Network Users: At any AXIP or BPQ32 Packet node, look for and connect to PACNET.**

**! For Outpost, Winpack and HyperTerminal Users: (Contact NS2B for your Username and Password.) Using TelNet (iptelnet with the Outpost Packet Program is recommended), connect to ns2b.ddns.net Port 8010. When connected, enter PCL and press <ENTER>.**

**! For Internet users: (Contact NS2B for your Username and Password.) With your browser, connect to: <http://ns2b.ddns.net:8080/Node/Terminal.html?pcl>**

If you can't make it, email Bob, NS2B ([ns2b@arrl.net](mailto:ns2b@arrl.net) or [ns2b@winlink.org](mailto:ns2b@winlink.org)), or Daryl, WX4QZ ([wx4qz@arrl.net](mailto:wx4qz@arrl.net) or [wx4qz@winlink.org](mailto:wx4qz@winlink.org)), and we'll acknowledge your callsign as an "early check-in" during the net. Bob and Daryl alternate net control duties from one week to the next...and Daryl is the weekly "scribe" for the net. If you receive this message via packet, and can't make the net for whatever reason, just REPLY to this message, and we'll give you "an early checkin".

Also note that on weeks having a holiday, we're not planning to hold nets. There will be a bulletin to notify everyone regarding those weeks.
